

Kindness Cloud

Intention: This is a great way for kids to surprise a friend or family member with handmade gift of kindness that tells them just how special they are.

This is a good opportunity for them to practice spelling some of the more challenging words before making their craft.

Materials:

- Blue and white paper
- Markers
- Glue or tape
- Scissors
- Coloured paper cut into strips

Instructions:

- Have your child write his or her friend's name, in marker, on the cloud.
 - Have your child think up some of the unique qualities that he or she really admires in his or her friend.
 - From their lists, they chose 6 words that best described their friend, and they wrote each word on the rainbow-coloured strips.
 - Coloured strips are glued to cloud. Which is then glued to Blue paper background and/or greetings card.
- Tip: You could have the colours of the rainbow illustrated in colour order to encourage music for learning... "I can sing a rainbow"

Congratulations! Your act of kindness will make someone smile.

Don't forget to make one with your own name, and list your best qualities.

Is it your teacher, friend or family member that inspired you? Send them a photo of your creation to add colour to their day.

We would love to see how you're getting crafty at home! #ArtsWhistler
