

Monster Fun

Another favourite to foster imagination and explore colour, shape and texture. Don't have googly eyes at home? No problem, enjoy drawing on expressions full of character and hunting down materials in your drawers. Could elastic bands be hair? Could cable ties be arms? Could Q-tips be a dinosaurs tail?!

Materials:

- Coloured paper
- Markers
- Glue or tape
- Scissors
- Eyes, pipe cleaners and tape (optional)
- Paper rolls (optional template holder)

Instructions:

- First, decorate your paper rolls, by gluing the colored paper all around them.
- Once done, it's time to get creative and decorate.
- You can do crazy hair with the help of decorative scissors.
- Add googly eyes (wiggle eyes stickers are amazingly fun to use when making these paper roll monsters).
- Add horns, wings, fangs, tentacles, sticky tongues... The sky is the limit.

What's your monsters name? What are his special powers? Where did he come from?

Enjoy creating with an imagination station of 'found objects' and the simple nature of paper craft.

We would love to see how you're getting crafty at home! #ArtsWhistler
